

Feb:

- Council worked on preparations to determine officebearer nominations and the Spring congregational meeting.
- A Worship Committee report responded to a letter received by a member of the congregation to clarify why only gluten free bread will continue to be used for the Lord's Supper. Basically, the risk of cross contamination is too great to offer anything other than gluten free bread. The letter also clarified why the church has decided to keep the grey psalter hymnals in the pews. The benefit is that it provides a backup in the event of a problem with the projection system and there are forms and creeds that we may choose to read from. That being said, for the sake of visitors, it is important for the pastor to highlight which book a song is being sung from to avoid any confusion.
